Subject: Variance Permit Request – Article 69-10-01-04.1

We are requesting a variance permit for the permanent use of a new truck scale to be used with less than 5' from one end of the scale to inside of an overhead door and used with more approach slope than 1/3" per 1' (69-10-02-09 Deck Lengths). Our proposal will allow us to weight trucks in a single draft and eliminate the need for split weighing.

Our current facility has a 30' truck scale that has approximately 1' from one end of the scale to the door sill. On this same end of the scale, the East side, the existing approach exceeds the slope requirements in order to match the elevation of the roadway. The existing scale is located inside of a building in the main elevator driveway. We are proposing to remove the 30' scale and have a new scale be installed into the existing elevator foundation along with an additional foundation to accommodate a longer scale (to eliminate split weighing). Due to the receiving pit and grain handling equipment, the new scale will have to start in the same location as the old scale on the East end. The current distance from the end of the scale to the door sill is approximately 1'. The new foundation to accommodate a longer scale (West end), will have a new building built over it to protect the scale from the environment. The new foundation will be designed to meet this requirement on the West.

The new scale, an 80' x 10' B-Tek Model BS-8010-200-FECD-P-A (S/N TS-06156584), is to be installed and placed into service by Prairie Scale Systems Inc. out of Horace ND. Construction for the scale project is scheduled to start shortly.

We appreciate your cooperation with our request. If we are granted a variance, we plan to operate the truck scale according to all applicable North Dakota Laws and Rules.

Thank you,
Rodney Erickson

Generate an Annual Report To File

To Generate a Annual Report form to be filed with the Secretary of State, select the appropriate year of the report you intend to file. This report does not contain details of a report previously filed with the Secretary of State. The annual report years reflected are an indication of the various report forms available in this site and is not an indication that an entity needs to file reports for all years. Missing years indicate that the forms for the missing year have not yet been deployed to the website, or have already been removed, and can be obtained by contacting the Secretary of State.
